

# Useful Cancer Information Resources

[Cancer Treatment Centers of America](#): CTCA integrates Naturopathic Physicians and Medical Oncologists in their hospitals. This page illustrates supportive ways naturopathic medicine can fit into conventional oncology.

[Oncology Association of Naturopathic Physicians](#): This resource explains naturopathic medicine and oncology and how it can help fight against cancer. Dr. Haynes is a member of OncANP and regularly attends continuing education seminars sponsored by the association.

[The Cancer Connection Idaho](#): This group is a local, completely free organization that provides support for people with cancer.

[MD Anderson Cancer Center](#) has an incredible data base to look up information about cancer. You can access the Natural Medicines comprehensive data base there. Just type in any therapy you are wondering about.

[Livestrong](#) at the YMCA is a free exercise program for cancer patients. You can do classes or work with a trained specialist individually.
